

# WASHBOARD: A FULL STACK A/B TESTING FRAMEWORK

Seamlessly serve different versions of the same app, in production, while maintaining a coherent user experience.

**AN AZURE INTERN PROJECT**

Built in 6 weeks by Hunter Gatewood. Mentored by Vishwam Subramanyam. Managed by Bobby Bhamra.

## A MINIMAL API

Participate to join an experiment, convert to measure a success metric. A user always receives the same experience.

**PARTICIPATE**    **CONVERT**

## A FULL STACK SOLUTION

Light, decoupled client packages for Angular 2 apps and Express 4 apps, backed by a Washboard server.
